GOLF COURSE

April 11, 2005

TO: National Scoreboards, LLC

FROM: Dave Tieman, Golf Director

Congratulations, Jerome Warner, National Scoreboards, LLC. You and your company did an outstanding job with our new scoreboard here at Weatherwax Golf Course. It added a great deal to our golf and outing programs, along with improving the aesthetics around our pavilion.

The scoreboard made our event presentation a professional and exciting one. The 12' x 31' board, with its versatile five swivel panels, made it easy for us to score our many kinds of golf events. Excited contestants watched their event unfold before them, hoping they came out on top.

We were not the only one who benefited from the unique and perfectly designed scoreboard. Some 33 advertisers were displayed around the score panels, showcasing their company and products to the thousands who participated in our events in 2004.

In my 25-year professional golf career I have never seen a scoreboard of this quality and magnitude. I have seen larger ones but never one nicer. The planning and work devoted to this design make this scoreboard stand out above all the rest. I highly recommend it to the courses and clubs who want to energize their tournaments, outings and events.

Thank you,

Dave Tieman, Golf Director and P.G.A. Golf Professional
